Telephone: (602) 421-1882

Email: jack.smith@azdoa.gov

The release of this Chapter in Supp. 22-4 replaces Supp. 20-4, 1-21 pages.

Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, rules managing editor, assisted with the editing of this Chapter.

<i>Arizona Administrative Code</i> <u>Publisher</u> Department of State Office of the Secretary of State Administrative Rules Division	Published electronically under the authority of A.R.S. § 41-1012. Authentication authorized under Arizona Revised Statutes, Chapter 54, Uniform Electronic Legal Material Act.	Mailing Address: Administrative Rules Division Office of the Secretary of State 1700 W. The Arizona Secretary of State electronically publishes each A.A.C. Chapter with a digital certificate. The certificate-based signature displays the date and time the document was signed and can be validated in Adobe Acrobat Reader.

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

Authority: A.R.S. §§ 41-5702(C)(6) and 41-5711(F)

Supp. 22-4

Editor's Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 01-4).

Editor's Note: This Chapter contains rules which were adopted, amended, repealed, or renumbered under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to Laws 1998, 5th Special Session, Chapter 1, section 55, as amended by Laws 1999, Chapter 299, section 39. Because this Chapter contains rules which are exempt from the regular rulemaking process, it is printed on blue paper.

Title 7, Chapter 6, adopted by exempt rulemaking at 6 A.A.R. 597, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1).

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

December 31, 2022
Supp. 22-4
Page 3

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

ARTICLE 1. DEFINITIONS

R7-6-101. Definitions

The definitions at A.R.S. §§ 41-5701 and 41-5711 apply to this Chapter. Additionally, unless otherwise specified, in this Chapter:

1. "Ambient CO² level" means the carbon dioxide level of the outside air.
2. "All-weather surface" means an area for vehicular use or parking that is surfaced with asphalt, concrete, chip seal, graded and compacted gravel, or other stabilized system.
3. "Decibel" means a unit for expressing the relative intensity of sounds.
4. "Eligible students" has the same meaning as prescribed at A.R.S. § 15-901.
5. "Equipment" means an item not affixed to the real property of a school facility.
6. "Exterior envelope" means the exterior walls, floor, and roof of a building.
7. "Fixture" means an item affixed to the real property of a school facility.
8. "Foot-candle" means the amount of illumination the inside surface of a one-foot-radius sphere would receive from a candle 7/8 inch in diameter burning at the exact center of the sphere at 7.776 grams per hour.
9. "FTE" means full-time equivalent.
10. "General classroom" means a space that can be configured for instruction in at least the areas of language arts, mathematics, and social studies.
11. "HVAC" means a heating, ventilation, and air conditioning system. The air conditioning system may or may not be refrigerated.
12. "IEP" means individualized educational plan, a legal document required by law for each public school child who needs special education.
13. "Normal conditions" means occupancy during regular school hours while the building system is operating.
14. "PPM" means parts per million.
15. "Random sample" means arbitrary selection through a process in which each classroom in each building has an equal chance of being selected.
16. "School facility" means a building or group of buildings and outdoor area that are administered together to comprise a school campus.
17. "School site" means one or more parcels of land where a school facility is located. More than one school facility may be located on a school site.
18. "Specialty classroom" means classroom square footage specifically designed for instruction in science, physical education, career and technical education, or art.
19. "Student" means an individual:
 - a. Enrolled at a school facility; and
 - b. In average daily membership, which is defined at A.R.S. § 15-901.
20. "Student body" means the number of students at a school facility.

Historical Note

Adopted by exempt rulemaking at 6 A.A.R. 917, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1). Amended by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final

rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-102. Repealed**Historical Note**

Adopted by exempt rulemaking at 6 A.A.R. 917, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1). Section repealed by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4).

ARTICLE 2. MINIMUM SCHOOL FACILITY GUIDELINES

R7-6-201. Application

- A. The provisions of this Chapter are applicable to a school facility and equipment that are necessary to meet the minimum school facility guidelines established in this Article or to meet the gross square footage standards and are in addition to standards prescribed by law.
- B. Notwithstanding subsection (A), new construction projects and building renewal projects approved before the effective date of this rulemaking are exempt from changes made in this rulemaking.

Historical Note

Adopted by exempt rulemaking at 6 A.A.R. 917, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1). Section repealed; new Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R7-6-202. Reserved**R7-6-203. Reserved****R7-6-204. Reserved****R7-6-205. School Site**

- A. A school district shall ensure a school site has safe access, parking, drainage, and security to accommodate a school facility that complies with:
 1. The minimum gross square footage requirements established in A.R.S. § 41-5711(C), for the number of students at the school facility; and
 2. This Chapter.
- B. A school site provides safe access by having:
 1. A student drop-off area; and
 2. A pedestrian pathway that allows students to enter the school facility through a designated point of entry without crossing vehicular traffic or by crossing vehicular traffic at a designated crosswalk.
- C. A school site provides adequate parking by having an all-weather surface area large enough to accommodate one parking space per staff FTE and one visitor parking space per 100 students. A school site that is unable to provide adequate parking may have the sufficiency of parking at the school site determined by the Board using the following criteria:
 1. Availability of street parking around the school facility;
 2. Availability of any nearby parking lots;
 3. Availability of public transit;
 4. Number of staff who drive to work on a daily basis; and
 5. The average number of visitors on a daily basis.
- D. A school site provides adequate drainage if the school site is prepared in a manner consistent with the drainage and flood-

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

plain management standards of the jurisdiction in which the school site is located.

E. A school site provides adequate security if:

1. There is a fenced or walled, outdoor, play or physical education area for preschool children with disabilities and students in kindergarten through grade six. A school site that is unable to provide adequate security may have the sufficiency of security at the school site determined by the Board using the following criteria:
 - a. Amount of vehicular traffic near the school site;
 - b. Existence of hazardous or natural barriers on or near the school site;
 - c. The amount of animal nuisance near the school site; and
 - d. Visibility of the outdoor, play or physical education area; and
2. The emergency response plan required under A.R.S. § 15-341(A) has been developed.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-206. Reserved

R7-6-207. Reserved

R7-6-208. Reserved

R7-6-209. Reserved

R7-6-210. Classroom Square Footage

- A.** A school district shall have school facilities with the following minimum cumulative classroom square footage:
1. For preschool children with disabilities through grade three: 32 square feet per student;
 2. For grades four through six: 28 square feet per student;
 3. For grades seven and eight: 26 square feet per student; and
 4. For grades nine through 12: 25 square feet per student.
- B.** Classroom square footage of a school facility is measured from interior wall to interior wall of a classroom and is the space required for teaching. Both general and specialty classrooms are included in the classroom square footage of a school facility.
- C.** Cumulative classroom square footage is measured as follows:
1. 100 percent of the classroom square footage usable for general classroom purposes and occupied throughout a day by the same students in programs for preschool children with disabilities, kindergarten, and grades one through six;
 2. 90 percent of the classroom square footage usable for general and specialty classroom purposes in programs for students in grades seven and eight; and
 3. 85 percent of the classroom square footage usable for general and specialty classroom purposes in programs for students in grades nine through 12.
- D.** Classroom square footage includes space allocated for any of the following purposes:
1. Garment storage,
 2. Supply storage,
 3. Work counter; and

4. Teacher or student collaboration.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-211. Classroom Fixtures and Equipment

Each general and specialty classroom shall:

1. Contain a work surface and seat for each student, teacher, and other individual regularly assigned to the classroom. The work surface and seat shall be:
 - a. Appropriate for the normal activity of the class conducted in the room, and
 - b. Capable of being moved into different configurations;
2. Have at least one, non-electronic or electronic, mounted or retractable, surface, at least three feet by five feet, which fulfills all of the following purposes:
 - a. Is erasable,
 - b. Is suitable for projection, and
 - c. Is suitable for display;
3. Have storage for classroom materials or conveniently accessible storage; and
4. Have secure storage for student records or conveniently accessible secure storage. Student records may be stored electronically.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-212. Classroom Lighting

Each general, science, and art classroom shall have a light system capable of maintaining at least:

1. Fifty foot-candles of light if the light is provided by incandescent, halogen, or fluorescent bulbs; or
2. Thirty foot-candles of light if the light is provided by LED (light emitting diode) bulbs.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R7-6-213. Classroom Temperature

A school facility shall have an HVAC or other system capable of maintaining a temperature between 68° and 82° F under normal conditions with an occupied classroom.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 28 A.A.R. 3939

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

(December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-214. Classroom Acoustics

The sustained background sound level of each general, science, and art classroom shall be less than 55 decibels.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R7-6-215. Classroom Air Quality

The CO² level in each general and specialty classroom shall not exceed 700 PPM above the ambient CO² level.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-216. Measuring Classroom Comfort

To determine whether a school facility complies with the standards in R7-6-212 through R7-6-215:

1. Classroom lighting, temperature, acoustics, and air quality shall be measured at a work surface in the approximate center of a classroom under normal conditions; and
2. Measuring shall be performed for a random sample of 10 percent of the general, science, and art classrooms in each building of the school facility.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-220. Learning and Technology Center

- A. A school facility shall have a learning and technology center with space for students to access electronic and hard-copy research and reading materials. The learning and technology center shall include space for reading, listening, and viewing materials.
- B. For an elementary school facility, the learning and technology center shall have space equal to the lesser of 1000 square feet or the square footage equal to 20 square feet per student for 10 percent of the student body.
- C. For a middle or junior high or high school facility that serves at least 150 students, the learning and technology center shall have space equal to the lesser of 1200 square feet or the square footage equal to 20 square feet per student for 10 percent of the student body.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-221. Equipment for Learning and Technology Center

- A. The learning and technology center of a school facility shall contain the following minimum equipment:
 1. One work surface and seat for every 20 students, minimum of 15, maximum of 75;
 2. One multimedia display;
 3. Projection equipment and projection surface;
 4. Ten books per student; and
 5. An electronic or hard copy of each of the following:
 - a. Almanac,
 - b. Encyclopedia,
 - c. Atlas, and
 - d. Unabridged dictionary.
- B. If a hard-copy almanac, encyclopedia, or atlas is used, each shall have a publication date of 2015 or later.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). R7-6-225. Cafeteria

A school facility shall have covered space in which students are able to eat within the school site, outside of classrooms. The space used as a cafeteria may have more than one function and may fulfill more than one requirement in this Chapter.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R7-6-226. Food Service

- A. A school facility shall have space, fixtures, and equipment sufficient for receiving, storing, preparing, and serving food to students. The food service fixtures and equipment shall be in or accessible to the cafeteria space.
- B. A school facility shall ensure food service fixtures and equipment comply with county health codes.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

R7-6-227. Equipment List for Food Service

- A. A school facility that receives, stores, prepares, and serves food to students shall have the following fixtures and equipment:
1. One three-compartment sink,
 2. One double-stack oven or a warming oven,
 3. One dishwasher if reusable dishes and silverware are used,
 4. One hot-food holding appliance,
 5. One range with hood,
 6. One refrigerator,
 7. One freezer, and
 8. One milk refrigerator.
- B. An alternative may be substituted for any item in subsection (A) if the alternative enables the school facility to receive, store, prepare, and serve food to students.
- C. A school facility that receives, stores, and serves food prepared off the school site may substitute equipment required for a warming kitchen for the items in subsection (A).

R7-6-246. Equipment List for Science Facilities

- A. A school facility with students in grades nine through 12 shall have the following science-facility fixtures and equipment:

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

1. One demonstration table with non-corrosive surface per 250 students;
 2. Six laboratory stations with a non-corrosive surface per 250 students;
 3. One fume hood;
 4. One chemical storage unit per 1,000 students;
 5. One eyewash or safety shower station per 250 students;
 6. Access to one microscope per 25 students, minimum of 12 microscopes or the number equal to one-half the number of students in grades nine through 12 divided by 25, whichever is fewer; and
 7. One refrigerator.
- B.** A school facility with students in grades five through 12 shall have the following science-facility fixtures and equipment:
1. One sink per 250 students;
 2. Access to one microscope per 25 students, minimum of 12 microscopes or the number equal to one-half the number of students in grades five through 12 divided by 25, whichever is fewer; and
 3. One balance per 250 students.

R7-6-256. Two-way Internal Communication System

A school facility shall have a two-way internal communication system, such as a telephone between a central location and each general and specialty classroom, the learning and technology center, and the cafeteria.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R7-6-257. Fire Alarm

A school facility shall have a fire alarm system as required by the State Fire Marshal.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4).

R7-6-258. Administrative Space

- A. A school facility shall have space for use by the administration of the school facility. For the school administrator, 150 designated square feet is required. For general administrative purposes, a space between 150 square feet and 1.5 square feet per student, as reasonable for the size of the anticipated student body, is required.
- B. A school facility shall have a dedicated space in which to isolate a sick student from the other students. This space shall be accessible to a restroom and large enough to accommodate one cot per 200 students, with a maximum of four cots.
- C. A school facility shall have work space available to the faculty that is in addition to any work space in or near a classroom. A space between 150 square feet and one square foot per student, as reasonable for the size of the anticipated student body, is required. The faculty work space may be in multiple locations throughout the school facility and may have more than one function.

R7-6-271. Exterior Envelope, Interior Surfaces and Interior

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

Finishes

The exterior envelope, interior surfaces, and interior finishes of a school facility shall be safe and capable of being maintained.

1. An exterior envelope is safe and capable of being maintained if:
 - a. Walls and roof are constructed of materials requiring minimal maintenance, including painting;
 - b. Walls, roof, doors, and windows are weather tight under normal conditions with routine upkeep; and
 - c. The building structural systems support the loads imposed on them.
2. An interior surface is safe and capable of being maintained if it is:
 - a. Structurally sound;
 - b. Capable of supporting a finish; and
 - c. Capable of continuing in its intended use with normal maintenance and repair.
3. An interior finish is safe and capable of being maintained if it is:
 - a. Free of exposed lead paint;
 - b. Free of friable asbestos; and
 - c. Capable of continuing in its intended use with normal maintenance and repair.

R7-6-275. Minimum Gross Square Footage

Each school district shall have sufficient school facilities, which comply with minimum school facility guidelines established in this Article, to meet the minimum adequate gross square footage requirements for the district as determined by law.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-276. Assessment of Minimum Gross Square Footage

- A. Computation of the gross square footage of a school facility may be by measurement or by calculation based on architectural plan documents.
- B. The gross square footage of a school facility equals all space within the facility excluding space used for district administrative purposes.
- C. The gross square footage of a district shall equal the sum of the gross square footage of each school facility in the district.
- D. The minimum gross square footage of a district equals the sum of the products of the students in each grade or program for preschool children with disabilities or kindergarten multiplied by the minimum adequate gross square footage requirements per student, applicable to the district for such grade or program.

- E. For the purpose of assessment of minimum gross square footage, the number of students in all grades and kindergarten shall be evenly distributed across all grades and kindergarten served by the district.

R7-6-285. Guidelines Exception

The Board may grant an exception from any of the guidelines in this Chapter. To obtain an exception, the governing board of the school district shall submit a written request to the Board. The Board shall grant an exception if it determines the intent of the guideline is capable of being met by the school district in an alternative manner. If the Board grants the exception, the Board shall deem the school district meets the guideline and is not eligible for state funding to meet the guideline.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

ARTICLE 3. SQUARE FOOTAGE CALCULATIONS**R7-6-301. Square Footage Calculations**

- A. A school district may use Class A bonds to supplement any project funded by the Board under A.R.S. § 41-5741. Under A.R.S. § 41-5702(H), when a school district adds square footage to the district through the construction of a new school facility using Class A bonds, the Board shall not provide funding to supplement construction of the new school facility.
- B. When a school district adds square footage to the district through the construction of a new school facility using Class B bonds or other funds, the Board shall not include the square footage of the new school facility in the net square footage of the school district for determining need for additional square footage under A.R.S. §§ 41-5711 and 41-5741.
- C. When a school district adds square footage to the district through the construction of a new school facility using Class A bonds, the Board shall include the square footage of the new school facility in the net square footage of the school district

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

for determining need for additional square footage under A.R.S. §§ 41-5711 and 41-5741.

- D.** If a school district uses Class B bonds and/or other funds to add or replace square footage at existing school facilities, the Board shall treat the additional square footage or replacement square footage as follows:

1. If square footage is added to an existing school facility using Class B bonds or other funds, the Board will not include the additional square footage in determining minimum adequate square footage under A.R.S. § 41-5711(C), but the Board will include the additional square footage in determining adequacy of the functional components of the school facility as specified in Article 2.
2. If a portion of the square footage at an existing school facility is replaced using Class B bonds or other funds, the Board will determine the student capacity of the completed school facility in the same manner as student capacity would have been determined before the replacement. If Class B bonds or other funds are used to construct a complete replacement school facility, the Board will determine the student capacity of the completed school facility based on the provisions of A.R.S. § 41-5711(C).
3. For purposes of this Section, replacement square footage means square footage constructed with Class B bonds or other funds that replaces existing square footage.

- E.** If square footage is added to or replaced at an existing school facility using Class A bonds, the school district shall determine the student capacity of the facility after the project is completed using the same procedure the school district would have used before the addition or replacement.

Historical Note

Adopted by exempt rulemaking at 6 A.A.R. 917, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1). Section repealed; new Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-302. Modification of Square Footage for Geographic Factors

- A.** The Board shall provide additional school facility square footage to a school district that has 100 or more students who:
1. Are transported one hour or more using the most reasonable and direct route; or
 2. Live 45 miles or more from the closest school using the most reasonable and direct route.
- B.** If the Board provides additional school facility square footage under subsection (A), the Board shall make a conscientious effort to meet the Minimum Adequacy Guidelines without requiring an extraordinary expenditure of public funds.
- C.** If an elementary school district that is not in a high school district unifies after June 30, 2005, the resulting unified school district may qualify for high school square footage under A.R.S. § 41-5741 if it meets the following criteria:
1. The resulting unified school district is projected to have more than 350 resident high school students being served by one or more school districts other than the students' resident school district within three years following the current fiscal year; and
 2. One of the following is true:

- a. At least 350 of the high school students in the unified school district would travel 20 miles or more to a receiving high school facility; or
- b. The receiving high school district is projected to need additional high school square footage within seven years. For purposes of this analysis, the projected average daily membership of the receiving high school district includes the high school students of both the receiving and sending school districts.

ARTICLE 5. NEW SCHOOL FACILITY AND LAND FUNDING

- R7-6-501. Capital Plans**

If a school district's capital plan, developed under A.R.S. § 41-5741, indicates the school district will need a new school facility or an addition to an existing school facility within the next four years or land within the next 10 years, the school district shall complete the capital plan packet issued by the Board and return the completed packet to the Board by the deadline prescribed under A.R.S. § 41-5741.

Historical Note

Adopted by exempt rulemaking at 6 A.A.R. 917, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1). Section repealed; new Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

- R7-6-502. Funding for New School Facilities or Additional Square Footage**

- A.** The Board shall prepare a New Construction Analysis for a school district that requests funding for additional square footage under the capital plan submitted under R7-6-501. The Board shall review the data submitted by the school district to determine student capacity of the school district, district student population projections, and existing square footage in the district. The Board shall provide a copy of the New Construction Analysis to the applicable school district.
- B.** If a school district proposes to locate a new school facility in territory in the vicinity of an airport, as defined in A.R.S. § 28-8461, the Board shall provide notice to the airport of the proposed new school facility and seek comments and analysis concerning whether the high noise or accident potential associ-

ated with airport operations is compatible with the proposed school facility and public health and safety. The Board shall consider the comments and analysis provided by the airport before deciding whether to fund the new school facility.

- C.** At an open meeting and after reviewing the New Construction Analysis prepared under subsection (A) and hearing from members of the applicable school district, the Board shall decide the number of square feet and students to be funded for the district, the funding per square foot approved by the legislature, and the total budget based on the funding per square foot.
- D.** After a school district signs the Terms and Conditions for New School Funding, the Board may make five percent of the funds approved available for architectural and engineering fees. The school district is responsible for deciding the actual amount spent on architectural and engineering fees.
- E.** A school district that is approved for funding for additional square footage shall proceed with the design development plan and specifications for the project. The school district shall submit to the Board one or more copies of the proposed drawings, specifications, schematic design, and budget estimates. The school district shall ensure all elements of new construction, excluding land acquisition, are included in the estimated budget. These elements include, but are not limited to:
 1. Architectural and engineering fees;
 2. Surveying, testing, obtaining permits, advertising, and printing;
 3. Construction costs;
 4. Furniture, fixtures, and equipment;
 5. Any necessary project management; and
 6. A three percent contingency amount to ensure the completed project meets all Minimum Adequacy Guidelines.
- F.** After reviewing the materials submitted under subsection (E), the Board shall decide whether to authorize the school district to proceed with construction of the additional square footage. The Board shall base the decision on whether the project is within the original scope and Board approval, the project meets the Minimum Adequacy Guidelines, initial comments from the local building authority and whether revised student population projections continue to justify the additional square footage. If the Board authorizes the school district to proceed, the school district may initiate construction. If the Board determines a project is outside of the original scope and /or Board approval or does not meet the Minimum Adequacy Guidelines, the Board may instruct the school district to resubmit under subsection (E) or make an alternative decision. Other funds may be used by the school district in conjunction with the Board approved funding.
- G.** The Board may modify or waive the requirements of this Section for good cause.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

- R7-6-503. Funding for Land**

- A.** A school district that is approved for funding of a new school facility under R7-6-502, may ask the Board to provide funding to purchase land on which to locate the new school facility.
- B.** The Board follows a three-step process, as described in subsections (C) through (E), before recommending whether to authorize funding to purchase land for construction of a new school facility. The Director may deviate from the three-step

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

process to meet circumstances such as purchasing state-owned or condemned land. The Director shall bring a recommendation regarding funding to purchase land to the full Board.

C. Step One, justification of the need for land for construction of a new school facility: If a school district currently owns land, the school district shall include in the justification;

1. A list of all land parcels currently owned by the school district;
2. The size and location of each district-owned land parcel; and
3. Why each district-owned land parcel is not suitable for the needed new school facility.

D. Step Two, request to purchase a specific land site:

1. A school district that requests to purchase a specific land site for construction of a new school facility shall provide the following to the Board:
 - a. A map of the school district showing current school facilities and, for each school facility, the projected student population, grade levels served, and attendance boundaries;
 - b. A description the land site selection process;
 - c. An explanation of why the land site requested was chosen over alternative sites;
 - d. A summary of any joint-use provisions or other intergovernmental agreements related to the land site requested; and
 - e. The legal description, size, and estimated cost of the requested land site. If the size of the requested land site is outside the range of acreage table approved by the Board, the school district shall justify the deviation.
2. The Board shall review the information submitted under subsection (D)(1) and either authorize or deny authorization for the school district to proceed to perform due diligence regarding the land site the school district proposes to purchase.

E. Step Three, due diligence regarding the specific land site:

1. A school district that needs funds to verify, gather, and submit the information required under subsection (E)(2) shall submit a cost estimate to the Board and the Board shall approve or disapprove the request to a maximum of \$30,000. The Board shall deduct any funds advanced to a school district to verify, gather, and submit the information required under subsection (E)(2) from the final amount authorized, if any. Rather than allocating funds to the school district to verify, gather, and submit information required under subsection (E)(2), the Board may contract and pay directly for the services.
2. A school district authorized under subsection (D)(2) to perform due diligence regarding the land site the school district proposes to purchase shall submit the following information to the Board:
 - a. Two appraisals of the land that show the proposed cost of the land site is at or below the fair market value;
 - b. Legal description of the land site;
 - c. Phase one environmental assessment completed within the last 180 days, plus the following factors (if not included):
 - i. Hazardous materials,
 - ii. Archaeology,
 - iii. Endangered flora and fauna,
 - iv. Noise,
 - v. Soil conditions, and

- vi. Identity of adjacent land owners and/or uses;
- d. American Land Title Association and topographical survey;
- e. Drainage statement;
- f. Estimate of land-site development cost;
- g. Photographic survey (if required by applicable planning and zoning departments); and
- h. Site feasibility diagram-conceptual study developed by a design professional that shows the proposed development of the land site. The site feasibility diagram shall include:
 - i. Property lines and measurements;
 - ii. Setbacks, right-of-ways, and easements;
 - iii. Vehicular access and parking;
 - iv. Pedestrian and bicycle access;
 - v. Building zone;
 - vi. Drainage concept;
 - vii. Utility routes or systems;
 - viii. Activity fields and courts;
 - ix. Limit-lines and calculation of usable area;
 - x. Existing features to be demolished or preserved; and
 - xi. Future expansion capability.

3. After reviewing the information provided by the school district under subsection (E)(2), the Board shall prepare a recommendation for the Division regarding whether to authorize purchase of the requested land site. The Board shall include in the recommendation the cost of the land site and applicable closing costs.

4. If the Division decides to authorize purchase of the requested land site, the Division shall request a funding appropriation from the Legislature.

F. Final distribution. If the legislature appropriates funding for purchase of the requested land site, the school district shall submit a written funding request to the Division. The Director shall make final distribution of funds to the school district.

G. Additional matters.

1. A school district that receives funds under subsection (E)(1) shall provide documentation to the Board of the actual expenditures from the funds after the final distribution.
2. A school district that receives funding under subsection (F) shall provide documentation to the Board of actual closing costs after the final distribution.
3. If completion of due diligence reveals a serious problem with the proposed site or if the actual cost of the requested site exceeds the amount approved by the Board, the school district may repeat the three-step process for a new site.

H. The Board may modify or waive the requirements of this Section for good cause.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-504. Donations of Real Property

- A.** If a school district wishes to receive funding to enable the school district to accept a donation of real property, as authorized under A.R.S. § 41-5741, the school district shall complete and submit to the Board a form that is available on the Board's website and provide information regarding the real property to be donated. If the school district lacks some of the

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

required information and needs funds to verify, gather, and submit the missing information, the school board shall submit a request for the estimated amount to obtain the missing information at the same time the school board submits the available information.

- B. At an open meeting and after reviewing the information submitted under subsection (A) and hearing from members of the applicable school district, the Board shall make a decision regarding funding to accept the donation of real property. Before the meeting, the analysis and recommendation of the Board shall be available to Board members and the school district.
- C. If the Board approves awarding the school district funds necessary to obtain all required information, the Board shall notify the school district. If the school district accepts the award, the school district may proceed to gather the required information. When the required information is submitted to the Board, the Board shall follow the procedures in subsection (B).
- D. If the Board approves funding to enable a school district to accept a donation of real property, the Board shall notify the school district. The school district shall submit to the Board documentation that the governing board accepted donation of the real property and the property title was transferred to the school district. When this documentation is received, the Board shall direct the Division, under A.R.S. § 41-5741(F), to distribute to the school district 20 percent of the fair-market value of the portion of donated property usable for academic purposes.
- E. If funds were distributed to a school district under subsection (C) the Board shall make an adjustment for the actual cost at the time of the final distribution. The school district shall provide documentation to the Board of the actual expenditures from the funds provided. An expenditure exceeding \$30,000 requires advance approval by the Board.
- F. In conducting the analysis under subsection (B) to determine whether real property proposed for donation is appropriate as a school facility site or a school facility, the Board shall consider the following:
 1. Location of the real property proposed for donation;
 2. School district need for additional square footage to accommodate student capacity;
 3. School district need for additional land for a school facility;
 4. Usable acres in the proposed donation, taking into consideration the Board's approved range of acreage table;
 5. Whether the proposed site donation can accommodate a school facility that meets the minimum adequacy guidelines or whether a proposed facility donation can be developed into a school facility that meets the minimum adequacy guidelines;
 6. Estimated development costs;
 7. Age and condition of a facility donation; and
 8. Portion of the real property that can be used for academic purposes.
- G. The Board may waive or modify the requirements of this Section for good cause.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-505. Constructing Bond-funded School Facilities on**Land Funded by the Board**

- A. A school district that acquires land by sale or lease under A.R.S. § 41-5741 may construct a new school facility on purchased or leased land using Class A bonds. The Board will include the square footage of the new school facility in the gross square footage of the school district to determine whether additional square footage or building renewal distributions are needed.
- B. A school district that acquires land by sale or lease under A.R.S. § 41-5741 may construct a school facility on the purchased or leased land using Class B bonds if the school district acknowledges in writing that when the school district qualifies for a new school facility funded by the Board, the Board shall not provide funding to lease or purchase an additional site for the school facility. The Board will not include the square footage of a new school facility constructed with Class B bonds in the gross square footage of the school district to determine whether additional square footage or building renewal distributions are needed.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-506. Providing Technical Assistance in the Form of Project Management

- A. A school district that does not have the experience or resources to manage successfully construction of a new school facility may request technical support from the Board under A.R.S. § 41-5702(D)(13) in the form of project management.
- B. The Director may approve or deny a request made under subsection (A). If the Director:
 1. Denies the request, the school district may appeal the decision to the Board; and
 2. Approves the request, the school district shall agree to reimburse the Board from allocated funds the cost of any independent contractors the Board uses to provide the project-management technical assistance.
- C. The Board shall ensure the cost of project-management technical assistance, if needed, is included in the overall cost of the new school facility and derived from the total allocation made by the Board for construction of the new school facility. If the funds the school district receives under A.R.S. § 41-5741 satisfy both the base cost of the new school facility and the cost of project-management technical assistance, the Board shall not provide additional funds to the school district for project-management technical assistance.
- D. The Board may provide a school district with funds to pay for the project-management technical assistance in addition to the funds the school district receives under A.R.S. § 41-5741 if:
 1. The school district demonstrates the funds it receives under A.R.S. § 41-5741 are not sufficient to build a school facility that meets the building adequacy guidelines and pay for project management; and
 2. The school district demonstrates in writing to the Board's satisfaction that the school district does not have the experience or resources necessary to complete construction of the new school facility successfully.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

- A.** To accommodate the needs of ASDB students, the classroom square footage requirements of the ASDB differ from those of other school facilities as follows.
- B.** Minimum cumulative classroom square footage:
 - 1. For preschool students with disabilities through kindergarten: 150 square feet per student; and
 - 2. For grades one through 12: 100 square feet per student.
- C.** Learning and technology center:
 - 1. For an elementary school facility that serves at least 150 students, the greater of 1000 square feet or the square footage equal to 325 square feet per student for 10 percent of the student body; and
 - 2. For a middle or junior high or high school facility that serves at least 150 students, the greater of 1200 square feet or the square footage equal to 275 square feet per student for 10 percent of the student body.
- D.** Multiuse space capable of being used for student assembly:
 - 1. Large enough to accommodate one-half of the student body plus parents and staff,
 - 2. The same size or larger than an average classroom at the ASDB, and
 - 3. At least 50 square feet multiplied by one-third of the student body in addition to the square footage of open aisle and exiting path space.
- E.** Science facilities:
 - 1. For grades five through eight, no classroom square footage is required other than as specified in R7-6-710; and
 - 2. For grades nine through 12, 10 square feet per student is required for practical instruction in science.
- F.** Art facilities: For students in grades seven through 12, 10 square feet per student is required for art education.
- G.** Career and technical education facilities: For students in grades seven through 12, 40 square feet per student is required for career and technical education programs.
- H.** Physical education and comprehensive health program facilities: 125 square feet per student of indoor space is required for physical education and comprehensive health programs.
- I.** The spaces designated under subsections (C) through (H) shall not be smaller than the average classroom at the ASDB.
- J.** The spaces designated under subsections (E) through (H) shall not be:
 - 1. Included in the classroom square footage requirement; or
 - 2. Used for instruction other than the specialty instruction specified.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

R7-6-711. Classroom Fixtures and Equipment

- A.** Each general and specialty classroom of the ASDB shall contain:
 - 1. Two work surfaces and seating for each student. The work surfaces and seat shall accommodate the special

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

needs of a student who is deaf, blind, or has multiple disabilities; and

2. One work surface and seat for the teacher and any other individual regularly assigned to the classroom.

- B.** The ASDB shall provide the equipment and supplies necessary to meet the IEP of all students.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final expedited rulemaking at 26 A.A.R. 2963, with an immediate effective date of November 3, 2020 (Supp. 20-4).

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

R7-6-758. Administrative Space

- A.** A school facility shall have space for use by the administration of the school. For the school administrator, 150 designated square feet is required. For general administrative purposes, a space between 150 square feet and 7.5 square feet per student, as reasonable for the size of the anticipated student body, is required.
- B.** A school facility shall have a dedicated space in which to isolate a sick student from the other students. This space shall be accessible to a restroom and large enough to accommodate one cot per 50 students, with a maximum of eight cots.
- C.** A school facility shall have work space available to the faculty that is in addition to any work space in or near a classroom. A space between 150 square feet and one square foot per student, as reasonable for the size of the anticipated student body, is required. The faculty work space may be in multiple locations throughout the school facility and may have more than one function.
- D.** A 9,500 square foot facility used for the administration of the Arizona School for the Deaf and Blind shall also be available.
